Subject: Falls Prevention Workshop

Every 17 seconds, an older adult is treated in the emergency room for a fall, and every 29 minutes, an older adult dies from injuries incurred from a fall.

The good news is that the vast majority of falls are preventable.

On Wednesday, March 16 at 11 a.m., the Senior Center at 801 E. Front Street in Traverse City will host a Falls Prevention Workshop, sponsored by Fyzical Therapy. Said Senior Center Network Program Coordinator Ericca Hovie, “We are pleased to host a presentation that could prevent a tragic fall for someone.”

At the conclusion of this one-hour seminar, participants will be able to identify factors that increase one’s risk of falling, and describe fall prevention measures. Participants also will hear how to help individuals at high risk for falls.

Advance registration is required for this free presentation. Call 231-922-4911 or send an e-mail to dmikowski@grandtraverse.org for more information.
