Instructions:

- ① Write the name of the material recovery facility where the recyclables were delivered.
- ② Record the amount of recyclables hauled to each designated facility. Separate the amount by category type – commercial, residential, industrial/other. Enter “0” when no activity occurred.
- ③ Check the box that describes the unit of measure for the amount entered on the form.
- ④ Check the box to identify whether the material was hauled loose or in a compactor truck (compacted).
- ⑤ Check the box that describes how the material was collected.

Definitions:

Single stream – paper, cardboard, plastics, metals and glass are collected mixed together

Dual stream – paper/cardboard is separated from plastics, metals and glass.

Single material – only one material is hauled for example, only cardboard, only metals, etc. Please identify the type of material recycled.
