SILT FENCES

HOW TO INSTALL A SILT FENCE

1. **V-TRENCH**
   - Excavate a 4"x4" trench along the contour.

2. **FLAT BOTTOM TRENCH (TYPICAL)**
   - Stake the silt fence on downslope side of trench. Extend 8" of fabric into the trench.
   - When joints are necessary, overlap ends and twist stakes together.
   - Backfill and compact the excavated soil.
